SUMMARY

Full Stack Web Developer with hands-on experience building responsive and user-friendly web applications using **React.js, Node.js, Express.js, MongoDB, JavaScript, and RESTful APIs**. Experienced in developing reusable React components, integrating frontend and backend services, implementing authentication, working with MongoDB data, and building responsive interfaces. Strong understanding of modern JavaScript, Git/GitHub, API integration, debugging, and performance-focused development. Seeking an opportunity to contribute as an **Associate Software Engineer** in a collaborative MERN development team.

PROJECTS

Shaadimartbd

Live - https://shaadimartbd.com/
Github - https://github.com/23-faisal/shadimart-bd.git

Next.js | React.js | TypeScript | REST APIs | Tailwind CSS | Zustand | TanStack Query

- Developed responsive and user-friendly web interfaces using Next.js and React.js for desktop and mobile users.
- Built reusable UI components and integrated RESTful APIs with backend services.
- Implemented authentication-related functionality and dynamic application features.
- Used Zustand and TanStack Query for client-side state and server-state management.
- Focused on responsive design, performance, accessibility, and maintainable component architecture.

atoz

https://github.com/23-faisal/atoz.git

React.js | Node.js | Express.js | MongoDB | REST APIs | Cloudinary

- Developed a full-stack e-commerce application with a responsive React.js frontend and Node.js/Express.js backend.
- Built RESTful APIs for product management, authentication, shopping workflows, and order management.
- Implemented MongoDB-based data management and integrated Cloudinary for product image handling.
- Developed reusable React components for product browsing, search, filtering, shopping cart, and dashboard interfaces.
- Implemented secure authentication and integrated frontend services with backend APIs.
- Used Git for source-code management and followed component-based development practices.

EduSync 23 — School Management System

https://github.com/23-faisal/edusync-23

Next.js | React.js | TypeScript | Tailwind CSS

- Developed a responsive school management dashboard using Next.js and React.js.
- Built reusable interfaces for students, teachers, parents, classes, lessons, exams, assignments, and attendance.
- Created interactive dashboards with charts, calendars, forms, and data-driven UI components.
- Applied component-based architecture and responsive design principles to improve maintainability and user experience.

SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Web Design
Backend: Node.js, Express.js, RESTful APIs, JSON, JWT Authentication
Database: MongoDB, Mongoose
State Management: Zustand, TanStack Query (React Query)
Tools: Git, GitHub, Docker, Linux
Core: API Integration, Authentication, Reusable Components, Debugging, Performance Optimization, OOP

CERTIFACATION

Responsive Web Design – freeCodeCamp
https://www.freecodecamp.org/certification/faisal23/responsive-web-design

Problem Solving – HackerRank
Credential ID 7C873FD8B69F

EDUCATION

Soargoan University, Dhaka
Bachelor of Science – Computer Science & Engineering
